

COVID19

As the global Coronavirus (COVID-19) outbreak continues to evolve, we wanted to share with you some important information about the steps we're taking to minimise the risk of exposure in our Villages.

Our greatest priority at this time is the health and safety of all our team members, residents and you, our valued customers.

We have taken extra steps to ensure our Villages are clean and hygienic for everyone. These measures include increasing the frequency of cleaning and sanitisation in all our villages, including high-touch areas such as handrails and counters, and providing complimentary hand sanitiser at villages.

We are actively following all health and travel advice issued by the Australian Government, including mandatory isolation periods for all team members and residents returning from international travel. We are also ensuring our team is supported with clear health and hygiene protocols at our villages, as well as providing the information and support all team members need to stay at home if they are unwell for any reason.

We currently have a limited selection of villas and apartments available. If you would like a private tour please contact our team to organise a time that is suitable.

At Rivervue and Applewood we remain committed to supporting all team members, residents and customers throughout this time.

Wishing you Health & Safety.
